

BROWN BOTTLE FEVER

Written by Melissa Alesi & Jason Adams

**I got a brown bottle fever
Since you walked out the door
It put a smile on my face to see you drive away
I hope I don't see no more**

It's not like this on a regular week day
I don't hide it when you go away
I like all your friends
I wish you'd live with them
So I can get drunk every day

**I got a brown bottle fever
Drinking from midnight til dawn
No naggin' out here, as I open my beer
It's peaceful since you've been gone**

Come Monday, you'll take away all my fun
I like drinking, but you don't like me when I'm drunk
Please stay away, just one more day
When you come home life really sucks

*Do the yard work, walk the dog
Change the oil in the car
Wash the dishes, fix the sink
Take a shower cause I stink*

*I cook dinner for you too
Tell me, what do you do
The list it never ends
Go live with your friends*

**I gotta brown bottle fever
Since I've been sleepin' alone
When I start to drinkin'
I get to thinkin'
Without you this house feels like home**
